What makes a great camp?

An outstanding team of coaches who care and connect with every player. We are #1!

The Peak Performance Hockey Summer Camp Skills Development session will focus on teaching individual skills to maximize performance at top speed. We push players out of their "comfort zone" and help develop skating, stickhandling, passing, and shooting skills at each player's ultimate level of play. We encourage creative thinking with the puck and help build self confidence. We then take what we learn on the ice and teach each player how to continue to develop those skills off the ice all summer long. Check out the competition and price per session rates. Our camps are value driven with great results ... we guarantee your satisfaction! Celebrating 28 years ... only the best return this long!

### **WHY PEAK? - WHAT MAKES THIS CAMP BETTER THAN THE OTHERS?**

No camp reinvents the game. The skills are the same. So it comes down to quality staff, number of staff members, and excitement of staff members. It comes down to the number of on and off ice sessions and cost per session. Peak has an excellent team of staff members and a low cost per ice session fee. Do your homework before you look elsewhere and you will see why over 23,000 players have trained at the Peak Performance Hockey Camps!

**LIMITED ENROLLMENT - EASY REGISTRATION - FIRST COME FIRST SERVED!**

**CHECK OUT THE COMPETITION! GREAT VALUE! EXCEPTIONAL INSTRUCTION!**
